Nordex energy se

Home

As one of the world's largest wind turbine manufacturers, the Nordex Group offers high-yield, cost-efficient wind turbines that enable long-term and economical power generation from wind energy in all geographical and climatic conditions.

At a glance

The growing service business of the Nordex Group is servicing approx. 11,400 wind turbines, with globally installed capacity of more than 35 GW. The publicly traded holding company Nordex SE (ISIN: DE000A0D6554) is listed in the Prime Standard of the Regulated Market of Deutsche Börse and is part of the German MDAX and TecDAX index.

Brazil

Brazil offers excellent wind conditions, with wind energy now one of the country's most important sources of energy. The Brazilian Association of Wind Energy and New Technologies ABEEólica announced that the installed capacity in Brazil had reached more than 22 GW (as of June 2023). At a glance

The Nordex Group's product portfolio comprises innovative and efficient wind turbines for high-, medium and low-wind onshore locations. The various models in the Delta4000 series are adapted to meet specific market requirements and offer variable outputs ranging from 4 MW to the 6 MW area, with rotor diameters of up to 175 meters.

Nordex SE

Nordex SE's wind turbines are designed to generate clean energy from the wind, reducing the need for fossil fuels and reducing greenhouse gas emissions. The company's renewable energy solutions are designed to meet the needs of customers across a range of industries, including utilities, corporations, and governments.
