Deep Cycle Batteries

HOPPECKE trak , bloc are sealed batteries for cyclical applications. With their compact design, these batteries are ideal for use in cleaning machines, wheelchairs, electric golf trolleys and caravans.

Vented fibre structure Nickel Cadmium batteries for

The HOPPECKE FNC ® battery will usually give you more than 20 years of useful life. As with all battery systems, life expectancy is shortened by high temperatures. For a rise in temperature of 10°C above the normal operating temperature of +20°C, the life expectancy of an FNC® nickel cadmium battery is reduced by less than 10%.
