## Overview

---

The Northern Mariana Islands, officially the Commonwealth of the Northern Mariana Islands (CNMI), is an unincorporated territory and commonwealth of the United States consisting of 14 islands in the northwestern Pacific Ocean. The CNMI includes the 14 northernmost islands in the Mariana Archipelago; the.

The islands were settled around 1500 BC when various peoples migrated there. Eventually, the islands were claimed by in 1521. In the 18th century, the people of the northern Marianas were forced by Spain to.

The Northern Mariana Islands have a system. They are a commonwealth of the United States. Federal funds to the commonwealth are administered by the of the .

According to the 2020 Census, the population of the CNMI was 47,329, down from 69,221 in 2000. The decrease was reportedly due to a combination of factors, including the demise of the garment industry (the vast majority of whose employees were females).

The official bird of the Northern Marianas Islands is the and the official flower is the . The islands are home to many tropical plants and animals, as well as around the islands marine life such as and . The islands are heavily.

The Northern Mariana Islands, together with to the south, compose the archipelago. The southern islands are , with level terraces and fringing reefs. The northern islands are volcanic, with active on several islands.

The Commonwealth of the Northern Mariana Islands benefits from its trading relationship with the federal government of the United States and cheap trained labor from Asia. The CNMI's economy has historically relied on tourism, mostly from Japan, and the garment.

Much of the Chamorro culture in the Mariana Islands was influenced by Spanish rule; it also displays influence from the Germans and Japanese. Respect is an integral part of Chamorro culture, and one typical display is the tradition of "mangngi". This.
