Kulani Energy's team has the requisite experience, exposure and know-how to positively add value at any stage of a project development lifecycle. In addition, we provide services in line with the regulatory and technical operational ...

Norway faces record-high electricity prices

Hydroelectric power generated in Norway is exported to Europe via cables, helping to compensate for low wind and solar energy production in countries including Germany and Denmark. Simonsen explained, "The power system in Europe has had to fire up all possible and accessible production sources to meet demand."
