

Off grid solar power simplified Anguilla

Off grid solar power simplified Anguilla

Going Off Grid on Anguilla: Getting Started

Comet Solar installs solar systems on several islands in the Caribbean. Because of restraints by utility companies and island governments we decided to try an experiment in off-grid solar. We are using our home in Anguilla as the test case since we are committed to the use of solar as a new way to power homes and businesses in the Caribbean.

Going Off Grid on Anguilla: Generator or Off Grid Solar?

We are using our home in Anguilla as the test case since we are committed to the use of solar as a new way to power homes and businesses in the Caribbean. This blog is about our experiences and the pros and cons of going off the grid.

Off-grid power in Anguilla

It saves 384,000 tonnes of diesel fuel annually and over 1,000 tonnes of CO2. There are plans for more utility solar but also opportunity on private homes, commercial buildings and hotels. Offgridinstaller can help realise the island's solar potential. Clients can either generate most of their own power including storage or just supply the grid.

Why Off Grid PV makes so much sense in Anguilla.

A single unit of electricity (1kWh) cost US\$0.43 in Anguilla when we started to plan our 1MW PV Off Grid system. Sunshine is the business of our island. Insolation for Anguilla is a year
