

Only solar Albania

Overview

The United Nations Development Program is supporting a program to install solar panels in Albania. The program has used \$2.75 million to support the installation of 75,000 m (810,000 sq ft) of solar panels. By 2010, 10,700 m (115,000 sq ft) of solar panels were installed and by 2014 the target had been met. There are 50,000 m (540,000 sq ft) of solar panels expected to be install.

Only solar Albania

Vega Solar

Vega Solar offers certified products and a 25-year warranty. The only photovoltaic company in Albania with partnerships with world leaders German, Austrian, Swiss and Dutch in the field of photovoltaics.

Rreth Nesh

Solar energy has proven to be not only the most efficient alternative energy, but also a safe and fast-returning investment. Therefore, we aim to accelerate the process of integrating photovoltaic systems into the lives of Albanian families and businesses.

Vega Solar shpk - FIAA Albania

Vega Solar offers a complete package of services to the client, from free consultancy by preparing a project that suits our clients' specific needs to installation, configuration, and periodic maintenance with professional equipment.

Renewable energy in Albania

Renewable energy in Albania includes biomass, geothermal, hydropower, solar, and wind energy. [1] Albania relies mostly on hydroelectric resources, therefore, it has difficulties and shortages when water levels are low. The climate in Albania is Mediterranean, so it possesses considerable potential for solar energy production. [2]

Solar Company in Albania , Solar EPC Companies in Albania , Solar

As a leading solar installation company in Albania, we specialize in designing and implementing customized solar projects for residential, commercial, and industrial clients. Our team of highly skilled engineers and technicians ensures seamless ...

Spitalla Solar Project

Target projects are mostly solar PV and wind. But not only. Voltalia is also working on agrisolar projects, where the food production and the power generation are combined for the upmost use of the lands. About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020).

A hydro heavy hitter turns its eyes toward solar.

Albania's solar sector is expected to grow significantly in the next few years, thanks to its sunny weather and an array of supportive policies. BNEF estimates up to 800MW in solar will be added by 2030 - 29 times the 28MW of solar capacity installed in 2022.
