Power Technologies Caribbean Ltd. (PTCL) is a Barbados based company and a regional provider of power quality solutions and services. It was founded in 2003 by experienced and ...

Power Systems

Stand Alone Power System. A Stand Alone Power System (SAPS) generally use a combination of renewable generation sources (such as solar PV, wind turbine or micro-hydro), a battery bank, smart controller/inverter and a back-up. Batteries. Batteries allow you to store electricity from micro-generation so you can use it later.

Power Management Systems

Designed to sheer perfection, our systems excel in load balancing and optimization. It intelligently distributes power across various connected devices and systems. The real-time demands are met by dynamically adjusting loads, assuring efficiency in resource utilization, preventing overloads, and reducing energy wastage.
