Pakistan centiel cumulus power

Intelligent modular single phase technology

Uninterruptible Power Supply. From 10kW to 20kW N+1 CumulusPower X1 provides the maximum flexibility to adapt to any application. Thanks to its Distributed Active-redundant technology (DARA(TM)), CumulusPower X1 design eliminates any single point of failure, preventing human error, reducing time to maintain and repair,

CUMULUSPOWER

Swiss made and designed Uninterruptible Power Supplies for the present and future of the most critical power applications. From Standalone PremiumTower10-60kW to the most advanced and highest availability modular solution ...

- HIGH-EFFICIENCY

CumulusPower(TM)

Uninterruptible Power Supply. From 10kW to 3.6MW CumulusPower(TM) provides the maximum flexibility to adapt to any application. By eliminating any single point of failure, Adding Distributed Active-redundant technology (DARA(TM)), preventing

CUMULUSPOWER X1

With CumulusPower X1, Centiel has revolutionized the single-phase modular UPS market by integrating the functionality of its

three-phase Distributed Active Redundant Architecture (DARA) into this new solution, ensuring customer convenience and the highest level of power protection.

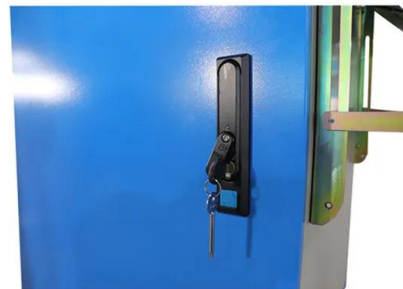

Modular UPS (Uninterruptible Power Supply)

The CumulusPower™ range is designed to protect small and mid-sized data center as well as other mission critical applications with 124% continuous operation in overload and maximum power of up to 3,6 MW. Cumulus Power is now currently the most efficient and the most powerful Modular UPS in the world. (99.9999999%, 9 nines, availability)

Stulz: Cumulus Power

CumulusPower™ is comprised of modules with power of 10, 20, 25, 50 and 60 kW, which can be accommodated in single racks with total power ranging from 20 to 600 kW. In addition, the power Racks can be extended to 3.6 MW by horizontally paralleling up to 60 modules.
