### LEAD BATTERIES: ENERGY STORAGE CASE STUDY

Islas Secas, Panama Harnessing abundant solar resources, an eco-resort located off the coast of Panama has chosen advanced lead batteries, paired with a battery management system (BMS), to power their island microgrid. This unique project has installed new lead batteries to the existing battery energy storage system. Initially using East Penn's

### Panama solar power installation , YourPanama

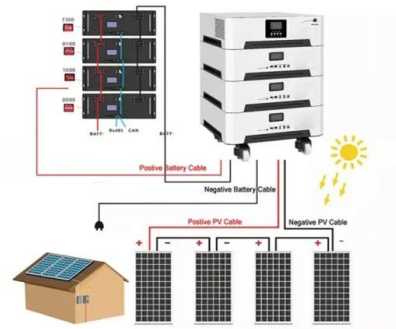

First sunlight hits the solar panel. Then a CONTROLLER regulates the DC power and sends it into a battery. Then the INVERTER converts

that battery DC into 110 volts AC and sends it to your 3 pin plug. HOW MANY PANELS AND BATTERIES DO I NEED? I will make this as simple as possible. What is your budget? How much can you afford?

## PANAMA POWER SYSTEM FLEXIBILITY ASSESSMENT

Figure 1: Main challenges of Panama's power system and FlexTool analysis done In 2017, Panama's power system had very large installed hydropower capacity (54% of total
