Pan European Technology Energy Research Approach

Reference -- Pan European Technology Energy Research Approach - PANTERA -- for Bulgaria, Cyprus, Germany, Ireland, Italy, Latvia, Norway presented by Horizon 2020 (2014 - 2020) (grants), budget is 3 888 338,75 EUR, in Energy sector

PANTERA: Jobber sammen for fremtidens smarte

PANTERA er et fireårig EU Horisont 2020 prosjekt, som skal samle europeiske FoU-aktører innen smart grid, energilagring og lokale energisystem. I dette innlegget får du vite hvorfor det er viktig.

PANTERA

PANTERA (PAN European Technology Energy Research Approach) is a EU H2020 project aimed at setting up a European forum composed of Research & Innovation stakeholders active in the fields of smart grids, storage and local energy systems, including policy makers, standardisation bodies and experts, representing the EU energy system.

Vision - Pantera Energy Company

Pantera Energy Company is dedicated to a strong drilling and optimization capital program to achieve organic growth. We focus on low-risk; repeatable drilling opportunities to maintain and/or grow cash flow. Additionally, we add value through strong knowledge of facility management, water handling, well head compression and monitoring.

Project Data

The project consortium is led by FOSS Research Centre for Sustainable Energy, University of Cyprus and consists of 9 partners from Germany, Italy, Norway, Latvia, Cyprus, Ireland and Bulgaria. Project Coordinator: FOSS Starting date: 01/01/2019 Duration: 54 ...

Team

At Pantera Energy, our team is the backbone of our success. Comprised of passionate and skilled professionals, we are committed to driving innovation and delivering exceptional renewable energy solutions. Meet the leaders who are guiding Pantera Energy towards a sustainable future.
