## Parkside solar generator Seychelles

---

### Seychelles' Desroches island running on 90 percent solar energy

Seychelles' Desroches island is consuming 90 percent less fuel thanks to the installation of a 2.5-megawatt solar farm commissioned by the Islands Development Company (IDC).

### Seychelles island resort to run on 90% solar energy

The Desroches Island in Seychelles recently inaugurated a 2.5MW solar farm which will see 90% of the island resort running on solar energy. The solar farm on Desroches was inaugurated by President Wavel Ramkalwan and chairperson of the Islands Development Company board of directors, Patrick Berloius.

### No more diesel: Largest solar farm in Seychelles fully powers a remote

The remote island of Alphonse is now completely powered by the largest photovoltaic farm in Seychelles, meaning diesel fuel is no longer needed to make electricity, said a top official of the Islands Development Company.

## Home

We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable

technologies including photovoltaic panels and dependable installation service.

**PARKSIDE® Solargenerator  
»PSGE-500-A1«, 41.600 mAh,  
tragbar**

Der Parkside PSGE 500 A1 Solargenerator kann sowohl indoor als auch outdoor zur Stromversorgung verschiedenster Elektrogeräte eingesetzt werden. Der Parkside 500 W PSGE 500 A1 Solargenerator verfügt insgesamt über 6 verschiedene Anschlussmöglichkeiten für 12- und 230 Volt- ebenso wie für USB-Geräte.

**Solar PV Farms**

We are experts in island micro-grids and heavy-duty tropical solar PV systems. See our partner Swimsol website for more information regarding solar farms and floating PV. ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy.

**Greener power supply in the  
Seychelles**

Now, the huge solar park and wind turbines ensure that seven million kilowatt hours of green electricity are generated every year - enough for around 2,000 households. mtu EnergyPacks stabilise the grid when the sun is not shining

## A Strategic Approach towards 100% Renewable Energy in Seychelles

While the potential for using renewable energies in Seychelles is significant, particularly for solar and wind energy, those resources have only been utilized to a limited extent so far. An increased deployment of renewable energy would benefit the state in the area of climate

## Renewable Energy - Ministry of Agriculture, Climate Change and ...

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

## Seychelles' Desroches island running on 90 percent solar energy

Seychelles' Desroches island is consuming 90 percent less fuel thanks to the installation of a 2.5-megawatt solar farm commissioned by the Islands Development Company (IDC). The solar farm on Desroches was inaugurated on Saturday by President Wavel Ramkalwan and chairperson of the IDC board of directors, Patrick Berlouis.
