## Borg - Verwarm je huis. Niet de planeet.

The transition from fossil fuels to renewable energy presents a new issue: the mismatch between supply and demand. Storage is the answer! The Borg stores sustainably generated energy in ...

## Portugal allocates funding for 500 MW of energy storage

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025.

## Portugal allocates EUR100 million in grants for energy storage

Portugal is looking to support at least 500MW of energy storage capacity by the end of 2025 via grant support. The country's Ministry of Environment and Energy has launched a competition for EUR99.75 million (US\$107 million) for grid-scale energy storage projects at the transmission and distributed-scale.

## Borg - Verwarm je huis. Niet de planeet.

The transition from fossil fuels to renewable energy presents a new issue: the mismatch between supply and demand. Storage is the answer! The Borg stores sustainably generated energy in a buffer tank underground. In your garden. It's a sensible and elegant solution: at times of lots of sun and wind, you store sustainable energy in your buffer.

## Portugal Allocates Funding for 500 MW of Energy Storage

Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

## Over Borg

Om die reden zijn 5 knappe koppen in 2020 Borg Energy Storage gestart. Ze bedachten een opslag van energie in de vorm van warmte in een buffervat onder de grond. Warmteopslag op woningniveau. Zo schoon & duurzaam mogelijk.
