

Portugal storage tank system

Portugal storage tank system

Water tanks , Rewatec

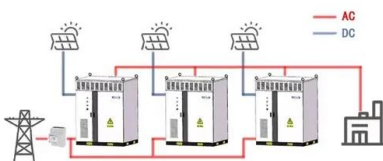

We manufacture a wide range of tank models, both for above-ground and underground storage. Storage capacities range from 500 to 75,000 L, depending on the selected model. Our underground tanks up to 15,000 L are made in one piece. For larger models, tank joints are welded internally and externally and mechanically reinforced around the perimeter.

Rainwater harvesting systems , Rewatec

Our system is designed for year-round use, providing you with a reliable and free water source at any time. We offer a complete range of models that includes rainwater storage tanks with capacities from 2,000 to 75,000 L.
