BESS in Bhutan

Our cutting-edge BESS technology in Bhutan is designed to revolutionize energy storage solutions, providing seamless power backup and enhancing grid stability. With a strong commitment to innovation and sustainability, our BESS products in Bhutan are engineered to optimize energy usage, reduce electricity costs, and contribute to a greener and

Domestic power demand to significantly increase

With the establishment of many high and medium voltage industries, Bhutan's total domestic requirement will increase from 2,437 Giga Watt hours (GWh) this year to 6,812 GWh by 2023 (see graph). Although Bhutan produces surplus energy, generation will not be able to meet domestic requirement in the lean seasons.
