Türkiye Electricity Review 2023

The energy plan projects that solar reaches almost 53 GW by 2035, up from 9.4 GW in 2022. With this increase, solar power is expected to have the largest installed capacity among all generation sources in Türkiye. This would put solar generating 16.5% of Türkiye's power in 2035, up from 4.7% in 2022.

About RWE & Turcas

Shell & Turcas operates a nationwide network of Shell branded fuel stations. Turcas also develops geothermal, solar and wind power projects.

Turcas and its German partner RWE constructed joint investment, the 775 MW Denizli Natural Gas Combined Cycle Power Plant.
