## Power x company Zambia

---

### ZESCO Limited

The 360MW power generation is wholly owned by ZESCO. In 2003, the Government of the republic of Zambia entered into a bilateral agreement with the People's Republic of China for construction of power generating stations to mitigate the power deficit the country was faced with.

### ESS

### Copperbelt Energy Corporation

At Zambia's independence in 1964, the Rhodesia-Congo Border Power Corporation became Copperbelt Power Company (CPC), an entity that supplied electricity to the mines until 1986 when it was incorporated into the Zambia Consolidated Copper Mines as its Power Division.

### About - POWERX

As pioneers in the private power sector, we aim to continually promote the growth of the green economy by contracting the generation of energy from renewable sources and trading this energy to consumers seeking its associated

benefits.
