### NASA's PUNCH Mission: A New Era for Solar Weather Forecasting

NASA is set to transform our understanding of solar weather with its upcoming PUNCH mission. This ambitious initiative will deploy multiple small satellites to delve into the mysteries of the Sun's corona ...

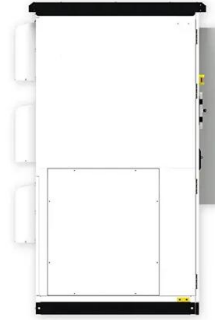

### NASA's PUNCH Mission Will Capture the Solar Wind in 3D--And It ...

NASA's PUNCH mission is set to revolutionize our understanding of the solar wind by capturing it in 3D for the first time. Using a network of four satellites, PUNCH will track how the Sun's

### PUNCH: The Mission

The PUNCH mission consists of a constellation of four small satellites in Sun-synchronous, low Earth orbit that together will produce deep-field, continuous, 3D images of the solar corona as it makes a ...

## SwRI-Led PUNCH Mission Captures First Images

Following its successful launch on March 11, 2025, PUNCH's quartet of small, suitcase-sized satellites has begun to send back its first-light images, marking a new era in the study of our ...

## NASA's PUNCH Mission Prepares by Testing Solar Panels Pre-Launch

Technicians have successfully deployed and tested the solar arrays of the PUNCH spacecraft at the Astrotech Space Operations processing facility located at the Vandenberg Space ...

## Polarimeter to Unify the Corona and Heliosphere

Polarimeter to Unify the Corona and Heliosphere (PUNCH), also known as SMEX-15, is a mission by NASA to study the unexplored region from the middle of the solar corona out to 1 AU from the Sun.
