Qatar mass global energy

Energy & Utilities, from The Report: Qatar 2024

Qatar has reaped benefits from changes in the global energy market caused by the conflict in Ukraine, and the accelerated energy transitions of several countries. The country has signed major long-term energy supply deals with China, France, Germany and the Netherlands, and will likely renew gas agreements with South Korea in the near future.

Qatar's energy sector entering new era of sustainability and

As the producer of 25 percent of the world's LNG, Qatar stands to benefit significantly from ongoing increases in global energy demand, which is forecast to rise by 40 percent by 2040

Qatar Economy Watch 2024

Qatar, a major player in the global energy market, ranks as the sixth largest oil producer in the Middle East and 14th worldwide²¹, with the world's third-largest natural gas reserves. The ...

Qatar 2024-2030 Renewable Energy Climate Change Strategy

In November 2024 Qatar's Ministry of Environment and Climate Change (MECC)

launched its 2024-2030 strategy under the theme "Together toward a sustainable ...

Qatar-Turkey Gas Pipeline Resurfaces as a Geopolitical Opportunity

4 · As one of the world's largest LNG exporters, Qatar's shift toward pipeline gas could solidify its role in the global energy market, reduce dependence on maritime routes, and boost ...

Qatar's road to energy diversification

The old order of mono-economies anchored in natural gas and crude oil is fading, as the drive to embrace more environmentally-friendly energy sources continues. Qatar is now writing a new narrative - one that embraces sustainability, diversification and a shift towards alternative sources.
