Rangebank bess Ethiopia

Victoria's second-largest BESS completed by Macquarie & Shell

The 200MW/400MWh Rangebank BESS, developed via a collaboration between energy storage developer Eku Energy and Shell Energy, an integrated energy services subsidiary of the fossil fuel major, is second in size to the 300MW/450MWh Victorian Big Battery.

Shell, Eku add 400 MWh battery to Victoria's grid

Less than 18 months after the start of construction, the 200 MW/400 MWh Rangebank BESS, first energized in August 2024, has officially commenced full operations. The battery is helping to stabilize Victoria's electricity supply by providing additional energy storage capacity that can be discharged at times of peak demand.

Rangebank Battery Energy Storage System project

Situated within the Rangebank Business Park in Melbourne's southeast, the Rangebank Battery Energy Storage System (BESS) provides 200MW / 400MWh capacity of reliable and flexible ...

Victoria's second largest battery opened at Cranbourne

Situated in the Rangebank Business Park in Melbourne's southeast, the jointly developed 200

MW/ 400 MWh BESS has the capacity to power 80,000 homes for an hour during peak periods. For Eku Energy, Rangebank BESS is the third battery it has completed globally, adding to a growing portfolio of more than 50 projects in the pipeline.

Rangebank BESS Project, Victoria, Australia

The 200MW/400MWh Rangebank battery energy storage system (BESS) is an energy storage project under construction in Victoria, Australia. Jointly developed by Eku Energy and Shell Energy, with Perfection Private as a minority equity partner, the project reached financial close in March 2023.

Rangebank BESS

Rangebank BESS Construction Update. Construction work at the Rangebank BESS has made good progress in 2024 with all major equipment installed on prepared foundations. The Cranbourne Terminal Station Bay works were completed on schedule by AusNet and the Bay H energised on 9 May 2024.

Victoria's second largest battery opened at Cranbourne

Situated in the Rangebank Business Park in Melbourne's southeast, the jointly developed 200 MW/400 MWh BESS has the capacity to power 80,000 homes for an hour during peak periods. Under a tolling agreement, Shell Energy will have access to 100 percent of the battery's capacity over the next 20 years, strengthening its growing battery portfolio.

Shell-Backed Battery Project in Melbourne Unlocks 200 MW of ...

The Rangebank Battery Energy Storage System (BESS) in Melbourne's Rangebank Business Park provides up to 400 MW hours (MWh) of power, enough for 80,000 ...

Shell-Backed Battery Storage Project in Melbourne Unlocks 200 ...

A consortium led by Eku Energy and Shell Energy has successfully completed the Rangebank Battery Energy Storage System (BESS) in Melbourne's Rangebank Business Park, marking the second-largest battery storage project in Victoria. With a capacity of 200 MW and 400 MWh of storage, the facility can power up to 80,000 homes.
