Rangebank bess Taiwan

Utility-scale BESS delivered by Shell Energy partnership

The Rangebank BESS will be built, serviced, and maintained by Fluence, a global provider of energy storage products and services, and cloud-based software for renewables and storage, utilising Fluence's latest ...

Utility-scale BESS delivered by Shell Energy partnership

The Rangebank BESS will be built, serviced, and maintained by Fluence, a global provider of energy storage products and services, and cloud-based software for renewables and storage, utilising Fluence's latest Gridstack product.

Grid-scale battery first for Shell , Energy Knowledge

Shell is making its first direct equity investment in a grid-scale battery anywhere in the world, partnering with Macquarie to deliver a utility-scale battery energy storage system (BESS) in Australia.

Shell, Eku add 400 MWh battery to Victoria's grid

Less than 18 months after the start of construction, the 200 MW/400 MWh Rangebank BESS, first energized in August 2024, has officially commenced full operations. ...

Grid-scale battery first for Shell , Energy Knowledge

Shell is making its first direct equity investment in a grid-scale battery anywhere in the world, partnering with Macquarie to deliver a utility-scale battery energy storage system ...

Partners

Eku Energy has been established to fund a 4GWh pipeline of energy storage projects with a portfolio of projects in key markets around the world, including the UK, Australia, Japan, and Taiwan. For more information about Eku Energy ...

Shell adds 400 MWh Rangebank battery to expanding ...

Shell Energy Australia has partnered with Green Investment Group (GIG), part of Australia-based venture capital fund Macquarie Asset Management, to build the 200 MW/400 MWh Rangebank battery energy ...

Shell adds 400 MWh Rangebank battery to expanding energy ...

Shell Energy Australia has partnered with Green Investment Group (GIG), part of Australia-based venture capital fund Macquarie Asset Management, to build the 200 MW/400 MWh Rangebank battery energy storage system (BESS) in the 20-hectare Rangebank Business Park in Cranbourne on Melbourne's southeast.

Australia's Rangebank Battery Energy Storage System, Victoria's ...

Under a tolling agreement, Shell Energy will have access to 100 percent of the system's capacity over the next 20 years, strengthening its growing storage portfolio. Rangebank BESS features an innovative design, including a single contiguous concrete slab and externally located high-voltage cabling.

Fluence batteries ordered for 6 MW/6 MWh BESS ...

The 6 MW/6 MWh BESS will be installed in the municipality of Taoyuan, northwestern Taiwan and will utilise Fluence's Gridstack technology. The facility will provide automatic Frequency Control (AFC) services for the ...

Rangebank BESS

The Rangebank BESS (Battery Energy Storage System) is an industrial scale BESS to be located in Cranbourne West, Victoria, Australia. It will provide 200MW / 400MWh capacity of reliable and flexible energy solutions.

Fluence batteries ordered for 6 MW/6 MWh BESS project in Taiwan

The 6 MW/6 MWh BESS will be installed in the municipality of Taoyuan, northwestern Taiwan and will utilise Fluence's Gridstack technology. The facility will provide automatic Frequency Control (AFC) services for the country's major utility Taiwan Power Company (Taipower).

Partners

Eku Energy has been established to fund a 4GWh pipeline of energy storage projects with a portfolio of projects in key markets around the world, including the UK, Australia, Japan, and Taiwan. For more information about Eku Energy [click here](#)

Planning

The Rangebank BESS (Battery Energy Storage System) is an industrial scale BESS to be located in Cranbourne West, Victoria, Australia. It will provide 200MW / 400MWh capacity of reliable and flexible energy solutions.

Australia's Rangebank Battery Energy Storage System, Victoria's ...

Under a tolling agreement, Shell Energy will have access to 100 percent of the system's capacity over the next 20 years, strengthening its growing storage portfolio. ...

Shell, Eku add 400 MWh battery to Victoria's grid

Less than 18 months after the start of construction, the 200 MW/400 MWh Rangebank BESS, first energized in August 2024, has officially commenced full operations. The battery is helping to stabilize Victoria's electricity supply by providing additional energy storage capacity that can be discharged at times of peak demand.

Rangebank BESS Project, Victoria, Australia

The 200MW/400MWh Rangebank battery energy storage system (BESS) is an energy storage project under construction in Victoria, Australia. Jointly developed by Eku Energy and Shell Energy, with Perfection Private as a minority equity partner, the project reached financial close in March 2023.
