Whole House Generators for Standby Power

A whole-house generator, or standby generator, functions by providing automatic backup power to an entire home during power outages. It's integrated into your home's electrical system and usually runs on natural gas or propane. When the generator detects a power disruption, it activates automatically.

38kW Home Generator , Generac

Generac's is the only manufacturer of standby generators to have 18" offset on most of its residential lineup. Quiet-Test(TM) All backup generators run a weekly test to ensure the system is running properly. Thanks to Quiet-Test, your Protector Series home generator runs its self-test at a lower, quieter RPM, which can be programmed to
