

Saint Barthélemy solar power roof panels

Saint Barthélemy solar power roof panels

Off grid solar power in Saint Barthélemy

In addition to the solar power plant, St. Barts has also installed solar panels on many of its public buildings and schools. The island is also working to encourage residents and businesses to install solar panels on their own properties.

Solar system for RHEINZINK standing seam roofing , RHEINZINK

RHEINZINK-PV is a flat-mounted, roof-parallel solar system. The specially developed seam and module clamp is simply attached to the double standing seams. At the same time, it fixes the frameless solar modules, which are matched to the shear widths of the RHEINZINK double standing seam roofing.

B& Q selects Egg to provide roof-mounted solar

Home improvement retailer B& Q has signed a partnership with clean energy solutions provider Egg to offer roof-mounted solar panels for the first time. Egg has been selected as B& Q's official solar partner and will design and install systems tailored to the needs of individual homeowners.

Solar streetlight solutions in Saint Barth

New lighting technologies such as LED and solar-powered streetlights are essential to cut energy costs and reduce environmental impact. This transition is inevitable in France, with a legal requirement to replace [...]

Your next new roof is a solar roof

With the scaffolding already in place for the reroofing work and much lower labour to fix the slates, the householder gets a roof that makes electricity for them at little extra cost. This 15kWp roof-integrated solar system by Solar Kingdom was also installed at the same time as the roof was re-covered on this office building in Kircaldy.
