The 1,800-hectare site would include solar panels, two battery energy storage system (BESS) facilities, an energy substation and access roads.

### Samsung Renewable Energy

Samsung Renewable Energy built the world's largest wind and solar power cluster back in 2010 in Ontario. Since then, the company has committed to deploying sustainable energy resources with a vision "to create value for the ...

50KW modular power converter

- Flexible Configuration**
  - Modular Design, Scalability, Redundant
  - Small Size, Easy to Install
  - Installed in Parallel for Expansion
- Powerful Function**
  - Support PV/WT
  - Grid Support, Equipped with DVC Technology
  - On-Grid and Off-Grid Operation
- Reliable Protection**
  - Custom IP65 Design
  - Sufficient Protection Functions Equipped

### Korean giant backs plans for Australia's first ...

South Korean giant Samsung C& T has thrown its weight behind the plans of Australian hydrogen hopeful Infinite Green Energy to develop and build what could be the nation's first commercial-scale

## How the solar power development business works

Solar energy is set to overtake coal as the world's biggest source of power by 2027; There is a need to diversify and expand solar power development; Samsung C& T Trading & Investment Group has broadened its focus from North America to Australia and from photovoltaics to energy storage systems

## Samsung Energy
