Ameresco, Envision to deploy 624MWh UK BESS for Atlantic Green

Developer-operator Atlantic Green has enlisted system integrator Ameresco and clean energy manufacturer Envision Energy for a 300MW/624MWh BESS project in the UK. The Cellarhead battery energy storage system (BESS) project will be connected to National Grid's Cellarhead substation in the West Midlands and have a maximum energy capacity of 624MWh.

TagEnergy energises UK's largest transmission ...

Renewable energy developer TagEnergy has energised what it claims is the UK's largest transmission-connected battery energy storage system (BESS): the 100MW/200MWh Lakeside project in North Yorkshire.

Sungrow and Fidra Energy link on 4.4GWh BESS projects

Fidra Energy and Sungrow have announced a strategic partnership to implement 4.4 gigawatt hours (GWh) of battery energy storage system (BESS) projects across the UK and European markets by 2030. Sungrow will supply its PowerTitan 2.0 energy storage system to two Fidra sites in the UK, providing long-term maintenance services.

EDF Renewables to deploy over 300MW of BESS over 12 months

EDF Renewables UK has today (20 August) announced that it will bring over 300MW of battery energy storage system (BESS) projects online over the next 12 months. Six projects are currently in construction and scheduled for completion in the next year, with a total capacity of 313MW.

Gresham House secures PPA for 568MW battery projects in UK

Gresham House Energy Storage Fund has entered a power purchase agreement (PPA) with a subsidiary of Octopus Energy for 14 of its battery projects, totalling 568MW/920 megawatt hours (MWh), in the UK. The two-year fixed-price contracts, in place from 1 July 2024, cover approximately half of the company's 1.07GW target portfolio.

Field Energy buys 200MW UK battery storage project

Renewable infrastructure developer Field Energy has acquired 200MW Hartmoor battery storage project from Clearstone Energy, expanding its 11 GW of battery storage projects in development and construction across Europe.

UK battery storage pipeline grows to 95.6 GW, says RenewableUK

The UK pipeline of battery projects has grown to 95.6 GW from 57.1 GW a year ago, marking an increase of 67.4%, according to RenewableUK's EnergyPulse Energy Storage report announced today.

UK deploys almost 1GW of battery energy storage in 2022 as ...

The UK deployed 833MW of battery energy storage in 2022 helping Europe reach 4.5GW of total battery storage capacity the same year, according to data from Enact and Aurora Energy Research respectively.

TagEnergy energises UK's largest transmission-connected BESS

Renewable energy developer TagEnergy has energised what it claims is the UK's largest transmission-connected battery energy storage system (BESS): the 100MW/200MWh Lakeside project in North Yorkshire.

UK Battery Storage Project Database Report

As of June 2023, the UK has more than 2.4GW of installed battery storage capacity and a total pipeline of planned capacity exceeding 66GW. The size of each project has grown significantly each year with the largest segment of this pipeline now comprising of sites over 100MW:

Massive growth potential for battery storage in UK and Ireland

The UK and Ireland's energy storage pipeline is rapidly growing, with co-located solar PV and storage comprising around 20% of planned capacity, writes Mollie McCorkindale of Solar Media Market Research.
