

Saudi Arabia solar electric generator

Overview

In 2011, The United States and Saudi Arabia jointly set up a solar-research station in Al-Uyaynah village. The village, located about 30 miles northwest of Riyadh, had no electric supply at the time. The station is operated by the King Abdulaziz City for Science and Technology. The agency established an experimental assembly line at the site to manufacture solar panels. The equip.

Solar power in Saudi Arabia

Saudi Arabia had about 500 megawatts of renewable electricity capacity in 2020, but targets 60 gigawatts, most of which would come from solar photovoltaics and concentrated solar power, by 2030. [19] This has incentivized announcements for private sector solar projects which have a highly competitive bid price in terms of levelized cost of
