GBMS and SCADA System - VL Automation

The Airport GBMS and SCADA systems monitor and control a large number of device and equipment. The UCOS system uses report-by-exception methodology to relay data and command between workstations and field control units and vice versa. This ensures that the most up to date information are delivered promptly to airport operations.

Nam Wah Intelligent Automation Ltd.

Nam Wah Intelligent Automation is a system integrator based in Hong Kong. We offer a full

range of engineering services related to industrial process automation, monitoring and control systems. The Company has extensive experience in serving clien

Advanced connectivity with a SCADA connection

For customers who prefer to connect their machines to their own monitoring platforms, Atlas Copco's Gateway 4.0 is a SCADA solution that ensures your facility aligns with Industry 4.0 standards and is ready for the future. While SCADA systems deliver raw data, integrating Gateway 4.0 with SMARTLINK offers an added layer of intelligent analysis.

AVEVA(TM) Plant SCADA , Schneider Electric Hong Kong, China

AVEVA Plant SCADA (formerly Citect SCADA) is a reliable, flexible, and high-performance Supervisory Control and Data Acquisition (SCADA) software solution for industrial process customers.

Lithium Solar Generator: \$150

What is SCADA's role in Industry 4.0? , Xylem Hong Kong

By adding embedded systems, artificial intelligence, and the Internet of Things, Industry 4.0 is pushing forward at breakneck speed. For critical infrastructure like water, gas and electric SCADA, this means more intelligence, automation, self-learning and a fundamental shift from a centralized to a de-centralized approach.

Factory Automation Systems

The GENESIS64 suite provides connectivity from plant floor SCADA and building facilities to corporate business systems. Designed to leverage 64-bit and OPC UA technologies, GENESIS64 allows operators, executives, and IT professionals to integrate real-time manufacturing, energy, and business information into a secure and unified web-enabled

AVEVA(TM) Plant SCADA , Schneider Electric Hong Kong, China

Schneider Electric Hong Kong, China. Browse our products and documents for AVEVA(TM) Plant SCADA - High performance site SCADA software solution, enabling smart manufacturing through Plant Technology Modernization.

Remote monitoring and automation solutions , Schneider Electric Hong

Our remote automation & monitoring solutions deliver integrated end-to-end telemetry and SCADA systems to help solve remote asset management and operation challenges.
