Skoon energy South Korea

Rent clean energy systems

At Skoon, we have the right green energy system for every project and challenge. Tell us your energy requirements and we'll provide tailored options to optimise and monitor your needs. ...

About us

Skoon is a young and dynamic company committed to making clean energy accessible and affordable for everyone. Our central platform connects users with suppliers of clean energy systems for temporary applications, such as construction sites and sports events, as a clean alternative to diesel generators.

Skoon Energy

Containerized energy storage can be used on ships, festivals, construction sites, electricity grids, etc. It can be applied to deliver peak power demand, or as a replacement of fossil-fuel based energy sources. Managing a network of large

batteries enables Skoon to offer energy solutions to a wide variety of customers, at any price point.

Skoon Energy

At Skoon, we are helping you make the switch from diesel to sustainable mobile energy solutions tailored to your project's unique needs. From events to construction sites, we offer the largest selection of clean energy systems for rent, enhanced by our smart software tools for easy booking, real-time monitoring, and detailed reporting.

Skoon Energy , Climatebase

At Skoon Energy, we understand the urgent need for flexible and accessible energy solutions. Our cutting-edge platform serves as a digital hub where energy providers can manage and share their clean energy systems, and consumers can seamlessly access and report on these resources to power their operations.
