

Smd storage system Brazil

Smd storage system Brazil

SMD Storage Solutions system

All in one SMD storage solutions from Essegi. SMD logistics, SMD handling & SMD storage. Saves SMD storage space by 70% and keeps SMD components safe. This fast & safe smd storage solution will transform the way you handle ...

EMS Component Smart Storage Solution , Seamark

Seamark ZM has different smart storage equipment to provide a total automated X-Ray SMD component counter and storage solution for small to large-size companies to meet different storage needs. Intelligent material rack optimizes the material preparation process through data docking with the storage system.

Home , Neotel Technology

We are a leading company in the SMT and semiconductor industries, committed to providing efficient intelligent solutions. Our one-stop solution integrates SMD BOX, NEO LIGHT, NEO COUNTER and NEO SCAN, with the goal of ...

Home , Neotel Technology

We are a leading company in the SMT and semiconductor industries, committed to providing efficient intelligent solutions. Our one-stop solution integrates SMD BOX, NEO LIGHT, NEO COUNTER and NEO SCAN, with the goal of meeting your needs for storing and managing components, PCBs, and solder paste.

Component storage , Mycronic PCB Assembly

A modern, near-production storage system. The MYTower is an automated, highly flexible and expandable buffer storage unit for electronic components, designed for deployment near the production line.

SMD BOX Series , Intelligent SMD Storage System , Neotel Europe

Neotel, the producer of the advanced SMD Tower, offers an innovative automatic storage solution for electronic components. Featuring sophisticated control software and dynamic SMD BOX modules with minimal maintenance, Neotel's system seamlessly adapts to your specific needs, ensuring unparalleled efficiency and flexibility in component storage.

MYTower 7+ Component storage , Mycronic PCB Assembly

The MYTower 7+ is Mycronic's tallest component storage system, measuring at 3.03 m, with a capacity of 1,148 reels. This component storage system has a footprint of 1.55 m², and is designed to store the large quantities of reels right next to your SMT lines.

SMD BOX Series

Neotel Technology's SMD Tower offers cutting-edge automation for electronic components storage. With our intuitive control software and advanced drive technology, our SMD BOX modules excel in ease of use and ...

SMD storage

SMD storage for optimized and fast access. SMD storage solutions boost efficiency and help reduce errors during manufacturing processes in which SMDs are mounted on circuit boards. The small components are kept on SMD reels which can be retrieved from storage on demand for manufacturing processes.

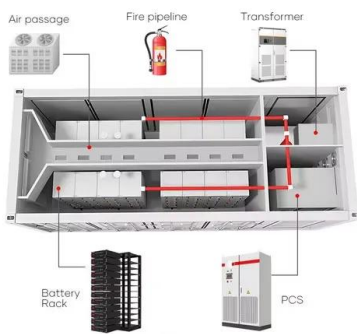

Storage and Picking System for SMD Reels

The Magic Tower is a fully automated, scalable, and modular storage and picking system for SMD reels, which are stored and retrieved fully automatically under gapless track and trace and with various quality controls. The innovative system with a capacity of up to 100,000 reels ensures maximum product safety and optimizes your production.
