Solar panels

Why are more and more people in Latvia installing solar panels and inverters? Modern solar panels are cheaper, better, and more productive than first-generation ones. For example, the warranty period of the European RECOM Black Full Puma Shingled 405 W panels, which are included in our SIA Tesla kits, is 25 years.

Solar panels

- very good price-performance ratio; - Estimated payback time; - delivery and service of complex solar devices; - a network of reliable and trained installers throughout Latvia; - elegant solar panel design; - 30-year factory warranty on solar panels.
