## Solar business in Norfolk Island

### Island Green Power plots solar scheme in Norfolk

Fresh from the approval of its 600MW project in Cottam, Island Green Power (IGP) has unveiled plans for a 500MW scheme in Norfolk. Early September saw development consent given to the 600MW Cottam Solar Project which will be made up of four electricity generating stations, including ground mounted solar arrays, as well as associated

### The Drovers Solar Farm - Island Green Power is in the early stages

...

Island Green Power is a leading developer of renewable energy projects, with a focus on utility-scale solar farms and battery storage systems. Our mission is to help the UK increase our solar energy generation, making more renewable energy ...

### Norfolk Island Renewable Energy Program Incite Energy

In late 2021, Incite Energy were appointed to review the operations and systems within the Norfolk Island Regional Council (NIRC) electricity business unit (NI Electricity) and implement changes to transition the island to an electricity grid dominated by renewable energy, allowing electricity tariffs to be reduced.

### East Pye Solar

East Pye Solar Ltd, part of Island Green Power Ltd (IGP), is introducing plans for a utility scale solar and battery energy storage system (BESS) on land near Long Stratton in South Norfolk, England.

### Island Green Power consults on 500MW solar site

Island Green Power (IGP) has launched the public consultation on its early-stage proposals for a 500MW PV project in Norfolk, England. If built, the East Pye solar farm would be located on land near Long Stratton in South Norfolk and would include solar panels and a battery energy storage system (BESS).

### The Droves

The Droves Solar Farm is a proposed project located on land between Swaffham and Castle Acre in West Norfolk. It includes a Battery Energy Storage System (BESS) to store excess energy, allowing it to be released when required.

### Island Green opens consultation on 500MW solar NSIP

Island Green Power is seeking public opinions on provisional plans for a nationally significant solar and storage project in South Norfolk. The renewable energy developer has launched public consultation on early-stage proposals for a 500MW solar development co-located with a battery energy storage system (BESS) that could have up to 500MW output.

## East Pye Solar - Island Green Power , Broadland and South Norfolk

East Pye Solar Ltd, part of Island Green Power, is introducing plans for a utility scale solar and battery energy storage system (BESS) on land near Long Stratton in South Norfolk, England .

## Norfolk Island Electricity System Improvements and

In 2022 Gardel Electrical & Solar was contracted by Incite Energy who were spearheading a comprehensive grid modernisation project on Norfolk Island, with Norfolk Island Regional Council. This project addressed the island's reliance on expensive and environmentally damaging diesel generation by transitioning to a sustainable solar and battery
