

Solar container battery trademark classification

✓ 50KW/100KWH

✓ HIGHER POWER OUTPUT
IN OFF-GRID MODE

✓ CONVENIENT OPERATION
& MAINTENANCE

✓ PRE-WIRED

Overview

This webpage provides the general remarks, class headings, and explanatory notes under the Nice Classification, Thirteenth Edition, version 2026 (NCL 13-2026), in effect as of January 1, 2026. In your letter dated September 25, 2023, you requested a tariff classification ruling. The item under consideration is referred to as a Battery Energy Storage System. The system will be imported under four model numbers: SBE 125, SBE 250, SBE 500, and SBE 1000, and housed in either a 10-foot or. Logging in using the Sign in link in the top right corner helps you avoid errors when the system is handling heavy traffic. It'll also give you access to even more features and enhancements in the future, including options to customize your search experience based on your preferences. What is a. by an agency of the U.S. Government. Neither the U.S. Government nor any agency thereof, nor any of their employees, makes any warranty, expressed or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness, of any information, apparatus, product, or. This class is the generic class for primary, secondary, and thermal batteries. It includes the structure of the generator or battery itself, the elements thereof, the methods of preparation, operation, and details, and accessories not provided for in other classes. SECTION II - LINES WITH OTHER. Use identifications that are clear, with concise terms that the general public would easily understand and that accurately and completely describe your goods or services. Using vague terms that don't identify recognizable goods or services, such as "miscellaneous services," in your application may.
