Overview

The approval has been withheld due to apparent non-compliance with a Companies Act provision which states that an unlisted company cannot offer its shares to more than 200 people in a financial year, without making a public offering. The global economy is a seismic shift on a global scale. Today's growing renewable energy and clean technology industry is alive with possibilities. Technology developments and significant decreases in renewable power prices, the focus of recent post-Covid stimulus packages in favour of climate initiatives. US home energy storage firm Paladin Power Inc is considering various capital markets opportunities and has tapped an adviser to help it explore its options, including the possibility of going public through an initial public offering (IPO). Singapore's Sembcorp Industries Ltd (SGX:U96) is India's biggest solar panel maker Waaree Energies' IPO delayed over deemed public offer non-compliance. The approval has been withheld due to apparent non-compliance with a Companies Act provision which states that an unlisted company cannot offer its shares to more than 200 people in a financial year. The global shift toward clean energy — driven by climate goals, falling solar costs, and rising demand — is increasingly reflected in financial markets. In 2025, solar and renewable-energy companies have seen a wave of initial public offerings (IPOs), signaling investor confidence in the long-term. The Solomon Islands Renewable Energy Development Project plans to finance new solar farms in Guadalcanal and Malaita provinces, along with a utility-scale grid-connected energy storage system in Honiara, the country's capital. It will also support a pilot for rooftop solar at two regional schools. Alpex Solar IPO is a book build issue of ₹74.52 crores. The issue is entirely a fresh issue of 0.65 crore shares of ₹74.52 crore. Alpex Solar IPO bidding started from Feb 8, 2024 and ended on Feb 12, 2024. The allotment for Alpex Solar IPO was finalized on Feb 13, 2024. The shares got listed on NSE.
