

Solar container exhaust pipeline

Overview

This solar roof vent runs on the sun's power which eliminates your need for electricity and helps you reduce your energy use and carbon impact. The roof vent creates a strong airflow that gets rid of hot air, moisture, and bad smells from your container. The BIG AIR 400 CFM Solar Powered Roof Vent is engineered to be installed on the roof of shipping containers. The vent comes with a 11 7/8 x 14 11/32 range hood filter (Bug Screen) In order to exhaust the full 400 CFM, 2 Big Air 45 Vents are required for air intake. As an Amazon Associate, we earn. The custom-designed aluminum framing kit allows the BigAir™ 57 CFM Solar Vent to be installed anywhere on shipping container sidewalls, end walls, or doors – from floor to ceiling. Eliminate moisture and excess heat with our state-of-the-art computer-modeled design! Designed to be installed. This solar roof vent runs on the sun's power which eliminates your need for electricity and helps you reduce your energy use and carbon impact. The roof vent creates a strong airflow that gets rid of hot air, moisture, and bad smells from your container. This helps keep things circulating and stops. Protect your container from heat and moisture with high-quality venting solutions. We offer both solar-powered and passive airflow vents designed to improve ventilation, reduce condensation, and keep your container's interior dry and secure. View products, DIYs, & so much more! There are a lot of. Our Solar Blaster Conex line of accessories bring ventilation and lighting solutions to shipping containers that are being used for storage or work spaces. Breathe fresh air, help protect your belongings from the build up of hot air & moisture, and bring natural sunlight into your container. The answer lies in shipping containers sweating through temperature swings. Traditional ventilation systems, well, they're sort of like using a band-aid on a broken pipe – temporary fixes that drain energy and money. In 2023 alone, cargo moisture damage cost the logistics industry \$12 billion.
