

Overview

Keep your container cool, dry, and mold-free with our specialized solar-powered vent, engineered to fit perfectly on the corrugated roof of standard shipping containers. Keep your container cool, dry, and mold-free with our specialized solar-powered vent, engineered to fit perfectly on the corrugated roof of standard shipping containers. This smart, self-powered fan system uses solar energy to actively remove hot, moist air—protecting your contents from heat. We have taken our very popular Solar RoofBlaster vent/fan unit and designed a special form-fitting flashing that will sit flush on top of a Conex shipping container! So we now offer not only a solar tube lighting solution for your Conex® shipping container, but we also provide a ventilation. The custom-designed aluminum framing kit allows the BigAir™ 57 CFM Solar Vent to be installed anywhere on shipping container sidewalls, end walls, or doors – from floor to ceiling. Eliminate moisture and excess heat with our state-of-the-art computer-modeled design! Designed to be installed. This solar shipping container vent fan provides quiet, reliable performance for off-grid shipping container solar ventilation, sheds, and RVs. □Adjustable Solar Panel & Dual Fans□Equipped with two built-in exhaust fans and a tilt-adjustable solar panel, this solar shipping container vent kit tracks. This solar roof vent runs on the sun's power which eliminates your need for electricity and helps you reduce your energy use and carbon impact. The roof vent creates a strong airflow that gets rid of hot air, moisture, and bad smells from your container. This helps keep things circulating and stops. Small Solar-Powered Vent Fan for 20' Shipping Containers Keep your container cool and dry with this compact solar-powered vent fan sized for 20' containers. Powered entirely by sunlight, it actively pulls hot, humid air out to reduce moisture buildup, help prevent condensation, protect your.
