## Overview

---

The solar Investment Tax Credit (ITC) remains one of the most valuable federal incentives for homeowners considering solar panel installation in 2025. Currently offering a generous 30% tax credit, the ITC can save the average homeowner between \$8,000 and \$10,000 on their solar. Federal tax incentives have played a critical role in making commercial solar financially viable for property owners for decades. However, with new rules taking effect over the next two years, timing has become just as important as design or location. Several upcoming changes will influence project. A major change is coming for commercial solar projects — and it could determine whether your company qualifies for the federal 30% Investment Tax Credit (ITC) for solar or loses it entirely. Starting January 1, 2026, new Foreign Entity of Concern (FEOC) rules take effect. These rules are designed. July 2025 ushered in a surprise policy shift that could reshape the economics of clean energy projects across the U.S. The One Big Beautiful Bill (BBB) is phasing out the Investment Tax Credit (ITC) much faster than expected—putting timelines, returns, and equipment strategies into sudden focus. The solar Investment Tax Credit (ITC) is one of the most important federal policy mechanisms to support the growth of solar energy in the United States. Since the ITC was enacted in 2006, the U.S. solar industry has grown by more than 200x SEIA has successfully advocated for multiple extensions of. The Investment Tax Credit (ITC) remains one of the most powerful incentives driving the adoption of solar and energy storage in the U.S. To help developers, businesses, and partners maximize the benefit, the IRS has issued updated Safe Harbor rules that clarify how projects can qualify. At. The Solar Investment Tax Credit (ITC) remains one of the most impactful drivers of renewable energy adoption in the United States. First enacted in 2006, it has helped shrink solar costs by more than 80% and enabled the installation of tens of gigawatts (GW) of solar—transforming solar from niche.
