## Overview

---

US solar and storage developer Pine Gate Renewables filed for Chapter 11 bankruptcy protection in November, joining other major companies that went under earlier this year, including residential solar financing platform Solar Mosaic and residential solar provider Sunnova. The solar industry experienced exponential growth over the last decade as costs fell and favorable policies helped drive mass adoption. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar. At the same time, between 2022 and 2025, a wave of bankruptcies and solar companies going out of business occurred in the United States. The solar industry was heavily affected by a range of factors, like higher interest rates, legislative shifts, competition, and financing issues. Some companies. Sunova Energy (NOVA) is a publicly traded solar solutions provider with a market capitalization of around \$26 million. The Houston, Texas-based company, founded in 2012, offers solar panel installations, battery storage, and related services to homeowners and businesses. It is considered one of the. Bankruptcy filings in the US solar sector have continued in 2025 amid a confluence of headwinds. US solar and storage developer Pine Gate Renewables filed for Chapter 11 bankruptcy protection in November, joining other major companies that went under earlier this year, including residential solar. SunPower has filed for Chapter 11 bankruptcy protection and plans to sell its assets. The rooftop solar installer has faced allegations of misconduct in its reporting practices. The residential solar sector has been walloped as high interest rates have depressed demand, leaving companies with too. The U.S. solar industry continues to grow, but a wave of solar bankruptcies is casting a shadow over that progress. In 2025 alone, several major solar companies are going out of business, even as demand for clean energy rises. Homeowners increasingly face unsupported systems, voided warranties, and.
