

Solar container project early stage handling process specification

Overview

This document describes how to handle the goods of a project, the packing, markings, storage and preservation. Where applicable specific handling instructions are provided. The PV modules will be placed in a vertical position in a cardboard box on pallets. If your modules are damaged on arrival, notify the driver immediately, notify carrier and LONGi staff within 24 hours of delivery, and provide a record with detailed information within 48 hours of delivery. See claims and warranties for full details. Always insert the fork from the short side of. The following is the correct way of packing, unpacking, unloading, storage and transportation of AESOLAR photovoltaic modules. The package consists of double corrugated cow card carton, single corrugated board and paper card, anti-inverted tape and strip wood pallet. Packing firm, simple operation. To ensure the safety of loading, unloading, unpacking and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download relevant content from Jinko's official website. Please do not hesitate to contact us if you have any. This document describes how to handle the goods of a project, the packing, markings, storage and preservation. Where applicable specific handling instructions are provided. The PV modules will be placed in a vertical position in a cardboard box on pallets. Packing of PV modules inside cardboard. This document provides information about the recommended handling of the standard box used to store and ship First Solar FS-Series Modules. Each First Solar packing box is filled with 50 modules, along with internal support material. For planning purposes, a fully loaded box weighs up to a maximum. This manual describes the handling, storage and unpacking of JinkoSolar PV modules. To ensure safety when loading, unloading, unpacking and storing PV modules, please read this manual carefully. You can find this and other related contents on Jinko's official web- site: 1.

Solar container project early stage handling process specification

Best practices for handling, unpacking and storing large-format solar

Admittedly, module shipping, unpacking, handling and storing are not the sexiest topics -- most of the industry's attention goes to the installation process and related best practices -- but for ...

Clearing to Commissioning: Complete Solar Site Work ...

Our teams support projects from day one, handling early-stage site work through to mechanical installation. In this article, we outline a typical solar site work ...
