

Solar leading Cyprus

Solar

Overview

Basking in more than 3300 hours of sunlight per year, Cyprus has the highest solar power potential in the European Union but currently imports most of its energy.

Solar leading Cyprus

Household Photovoltaic Systems in Cyprus , Green ...

Every household in Cyprus can now generate, store and use its own electricity. Through Net Metering Photovoltaic System you can produce and exploit your own electricity at home, with the help of an autonomous Photovoltaic system.

Our renewable energy solutions are designed to give our customers maximum performance, peace of mind and short pay-back period. Our aim is to provide households and businesses in Cyprus with solar energy systems that produce enough electricity to reduce or even eliminate the dependency on expensive conventional energy.
