

Solar panel company in the Solomon Islands

Solar panel company in the Solomon Islands

BREAL

We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use GEL lead acid or Lithium batteries; quality components from manufacturers like Victron Energy, and we ensure that we 'oversize' the ...

Solar Installation

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

Solar Power Consumer Guide

Solar energy can help save you money on your electricity bill by replacing some of you consumption from the Solomon power grid. Solar power systems have no moving parts, are extremely reliable, and have a long expected life span. They are self-cleaning, easy to install and require very little in the way of maintenance. Types of Solar Power Systems

About Us

As a customer, you get to benefit from the hundreds of solar power systems that our team has installed for customers around Solomon Islands. Seeing the sad environmental costs of dumped low-quality batteries, and the failure of PV systems due to poor workmanship has had a strong influence on why we prioritize quality over price.

Company Profile

Superfly was established in 2011 as Solomon Islands only quality-focused solar provider. Our consulting and project management experience gives us an edge over other solar companies in the Solomon Islands.

Guide to buying household solar panels (photovoltaic panels)

Guide to buying household solar panels (photovoltaic panels) Solar power systems are now an affordable option for households looking to reduce their power bills and generate their own electricity. There is an increasing number of products and suppliers on the market, most of which will be able to be connected to the Solomon Islands grid.
