Norfolk Island Closer to 2024 100% Renewable.

Norfolk Island's power goes 100% renewable (solar) at the end of this year. The Bounty Museum got switched over today so that we now can do our bit and feedback into the grid (the islands battery) so as to help lower the price of electricity for everyone living on the island.

East Pye Solar

East Pye Solar Ltd, part of Island Green Power Ltd (IGP), is introducing plans for a utility scale solar and battery energy storage system (BESS) on land near Long Stratton in South Norfolk, England.

Island Green opens consultation on 500MW solar NSIP

The renewable energy developer has launched public consultation on early-stage proposals for a 500MW solar development co-located with a battery energy storage system (BESS) that could have up to 500MW output. The East Pye Solar project will be situated on 1,100 hectares of land south of Norwich and north of Harleston.

New proposed solar project could power 115,000 homes

Island Green Power said the project, known as East Pye Solar, is planned for land in Long Stratton, Norfolk, and will be able to provide energy over the next 60 years.
