Understanding solar power in Bermuda

Finally, adding to the complexity, is the relationship between the homeowner, BELCO, the Regulatory Authority (an independent body that sets the exchange rates) and the individual energy consumption patterns of each home. In a nutshell, most solar powered homes sell their excess energy back to BELCO via a set rate called the "Feed in Tariff".

Saturn Power

This project is a significant achievement for Saturn Power, BELCO, the government and the people of Bermuda, as it is the country's first utility-scale, renewable energy facility. Using over 20,000 photovoltaic solar panels, Saturn Power developed this 6 MW AC solar photovoltaic (PV) power generation facility, at "The Finger" on St. David
