Solar panels for campers Tuvalu

Floating Solar Photovoltaic System Installation Completed In Tuvalu

The installation of Tuvalu's inaugural Floating Solar Photovoltaic (FSPV) system has been successfully completed, with this cutting-edge system seeing 184 solar panels positioned on Tafua Pond in Funafuti.

Solar Panel Kits

Whether you're boondocking, going fully off grid, or parked at a caravan park, a solar panel kit will keep your batteries charged and your appliances running. Investing in a solar panel kit is a smart, environmentally-friendly choice that will pay for itself in no time.

Floating Solar Photovoltaic System Installation ...

The installation of Tuvalu's inaugural Floating Solar Photovoltaic (FSPV) system has been successfully completed, with this cutting-edge system seeing 184 solar panels positioned on Tafua Pond in Funafuti.

Tuvalu's floating solar panels

In Funafuti, a small pond bordered by pig pens is now home to an innovative renewable energy pilot program, floating solar panels. Tuvalu Energy Corporation General Manager, Mafalu Lotolua says the project is a response to the

struggle to find space to install solar panels on the atoll.

Tuvalu , Clay Energy

The installation of Tuvalu's inaugural 100.28kWp Floating Solar Photovoltaic System (FSPV) consists of a total of 184 x 545W Sunergy solar panels with a solar floating mounting system. Through this new FSPV system 174.2MWh of electricity will be generated each year, meeting two percent of Funafuti's annual energy demand.

Renewable energy in Tuvalu

In January 2020, Infratec commissioned a 73.5 kW rooftop solar panel-battery storage project on the Tuvalu Fisheries Department building in Funafuti, funded by the New Zealand Ministry of Foreign Affairs and Trade. [30]

Small steps towards full-renewable for Tuvalu

Infratec has installed 196 solar panels on the roof of the new Tuvalu Fisheries Department HQ on the main atoll of Funafuti, giving the building 73.5kW of its own renewable energy generation, plus 220kWh of battery storage.

Fuelling Tuvalu's sustainable energy aspirations

From solar rooftops and the Off-grid solar-powered Capacitive Deionisation (CDI) systems to the pioneering floating solar PV with 100kW. innovative solutions like floating solar panels (a first for the PICs) and raised solar installations are being embraced in Tuvalu as the Pacific grapples with addressing the challenge of limited land space.
