## Solar panels on lease Finland

---

### Leasing boosts Finland's solar power plans

Finland's largest solar power plant started operation in mid-April 2016 and the plant's owner and operator, Helsinki energy company Helen, is helping to finance the investment and operation by leasing the plant's almost 3,000 solar photovoltaic panels to the company's electricity customers.

### The Feasibility of Solar Panel Leasing in Fin

issues related to solar panel leasing in Finland. More specifically, the main issues under review will be leasing law and contract models, direction of solar energy industry, electricity demand in average households, pricing and supply of alternative electricity

### Solar power for lease - it's customer's choice how to produce

A customer - be it a private person, firm or industry will get renewable energy self-sufficiently and according to how much is wanted. The panels are leased out as designated panels. A designated panel costs EUR 4.40 per month, and the panel's yield is refunded on the customer's electricity bill.

### Solar power

You can rent solar panels from our solar power plants in Kivikko, Messukeskus and Suvilahti or

rent even more efficient solar panels from our Nurmijärvi solar panel field. Prices starting from EUR 5,46/month. Rent solar panels

## Solar power

We lease land for solar power projects and work as a project developer in solar projects as well as hybrid solar and wind power projects. Our solar power activities are guided by responsibility. We aim to direct solar power production to environments that have already been transformed by humans, such as former peat production areas.

## Home

Whether it is manufacturing solar panels locally, designing and building production lines, or sales, design, and construction of comprehensive turnkey solar solutions, they all belong to the expertise area of Solar Finland.

## Solar power plants

You can also purchase a solar power plant with instalment or leasing financing (12-84 months/OP funding) Your company has the opportunity to cover 20% of the costs with energy aid from Business Finland ; We offer a warranty and service contract for a 25-year period ; Oomi power purchase agreement (PPA) You can also purchase a solar power

## Leasing boosts Finland's solar power plans
