

# Solar setup for home Lebanon

The image shows a house with solar panels on the roof. In the foreground, there is a battery storage system consisting of several white units stacked on a metal frame. To the right of the battery units, there are four circular icons: a hand pointing to a button, a globe, a battery with a lightning bolt, and a lightbulb with a lightning bolt. Below these icons are four lines of text: 'easy to install and use', 'World wide Products', 'faster charging and discharging', and 'Multiple protection with alarm systems'. Below the icons and text, there is a large heading 'Can save energy' followed by a paragraph: 'the battery capacity can be increased freely and flexibly according to the situation of home use.' and 'Rechargeable lithium batteries use safe LiFePO4'.

easy to install and use

World wide Products

faster charging and discharging

Multiple protection with alarm systems

## Can save energy

the battery capacity can be increased freely and flexibly according to the situation of home use.

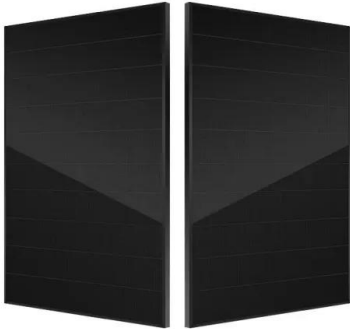

Rechargeable lithium batteries use safe LiFePO4
