Solarcentury Brings Solar Power to 40,000 Eritreans

Solarcentury is pleased to announce the completion and commissioning of two solar-hybrid mini grids, bringing power to the rural communities of Areza and Maidma in Eritrea in east Africa. This project is a hybrid power system, combining solar photovoltaics with lithium batteries and backup diesel generators in a location remote from the country

How Eritrean villages will light up with Solarcentury's PV mini ...

Eritrea will soon join the global solar boom with a EUR5.7million fund bringing clean power to two rural villages that currently rely on small diesel generators.

Eritrea Launches First Solar Power and Storage System

In a landmark move toward sustainable energy,

Eritrea is set to welcome its first solar photovoltaic energy storage plant, marking a significant step in the nation's renewable energy journey.

Making an impact in Eritrea

Earlier this month we launched two solar-hybrid mini-grids. Theo explains: "70% of the electricity from the mini-grids will be generated by solar, the remainder by diesel. By using batteries we are able to maximise the use of solar and carefully manage the use of expensive diesel generators.

Promoting Solar Energy in Eritrea

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Solarcentury completes PV mini-grids in Eritrea with Tesla batteries

Solarcentury has commissioned two solar-storage-diesel mini-grids in rural communities in Eritrea that are far away from the grid and have relied purely on diesel power until now.

solar Distributors serving Eritrea , Energy XPRT

Sentinel Solar is dedicated to providing complete solar solutions for commercial, farm and residential markets. We use industry leading technology to maximise ROI (return on investment) and longevity of the system and we are very proud to source all
