Solar Turbines Switzerland SAGL

Solar® Turbines is a leading manufacturer of mid-range industrial gas turbines (3.5 to 21.7 MW). More than 15,000 Solar units are operating in 100 countries around the world.

Solar Turbines , Powering the Future

Solar Turbines is a global leader in providing energy solutions that help businesses, governments and public institutions find the perfect balance between affordable, available, and reduced carbon energy.

Renewable Energy Sources

"The supply and production of energy is a challenge for isolated energy systems such as Cyprus. At the same time, the available technological solutions and the successful applications on other islands, have proved that

the transition to 100% renewable energy sources (RES) is possible.

Integrated cogeneration: an efficient, future-proof investment

Solar Turbines and its partners in the tissue machine industry are leaders in integrated cogeneration applications. Gas turbine exhaust is fed directly into the Yankee hood, and the remaining thermal energy that exits is driven to a heat-recovery steam generator that produces the steam required in the hood.

Worldwide Locations

Headquartered in beautiful San Diego, California, Solar has offices conveniently located worldwide. Click below to find an office near you. [Solar Office Locator](#). Solar Turbines Incorporated.
