### High Voltage Solar Battery

### My Anker Solix Home Power Panel and F3800s setup

When the household load power is less than 600W, the single F3800 unit with the higher charge will discharge first. When the household load exceeds 900W, both F3800 units will discharge simultaneously (with a set hysteresis). Discharge will only occur if the battery level is above the user-set reserve level. Examples:
