BSB Supports First Renewable Energy Plant in Somalia

We are honored to participate in the first renewable energy power plant in Somalia since 2017 with our OpzV2-1200 (2V 1200Ah Tubular Gel Battery). The energy plant located in the north eastern part of the country currently produces 3.5MW of energy for distribution to more than 13,000 clients all across the city.

BECO's Solar Power: Bringing Cheaper, Cleaner Energy to Somalia

In June 2020, Somalia's largest electricity provider, BECO, announced the opening of a new solar power plant in the capital city of Mogadishu. BECO is the only company that provides electricity for Mogadishu, Afgooye, Balad, Barawe, Kismayu, Marka, Jowhar and ...

Unlocking Somalia's Clean Energy Potential , by Power Africa

Somalia has one of the highest potentials for renewable energy in sub-Saharan Africa. The country is endowed with shoreline wind power that can generate up to 45 gigawatts (GW) of electricity,

Beco builds 8 MWp solar power plant in Mogadishu

5 · Beco, the company that provides the public electricity service in the city of Mogadishu, has

recently installed a photovoltaic solar power plant there. The objective is to reduce electricity costs in the Somali capital. The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years.

MIGA Supports Ground-Breaking Solar Project in Somalia

The solar hybrid power plant will lead to significant greenhouse gas emissions savings, as the solar power produced will displace diesel generators which are highly polluting. The project will displace an estimated fuel usage of approximately 1 million liters per year, resulting in avoided greenhouse gas emissions of approximately 2,800 tons of

Strengthening Power Grids in Somalia with Digital Technology

Power Africa supports Somalia's clean energy transition to address cost and reliability. Through targeted support to ESPs like NECSOM, Power Africa is improving the investment readiness of the

Somalia: Beco builds 8 MWp solar power plant in Mogadishu

Beco, the company that provides the public electricity service in the city of Mogadishu, has recently installed a photovoltaic solar power plant there. The objective is to reduce electricity costs in the Somali capital. The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years.

Somalia seeks contractor for country's first utility-scale renewable

The federal government of Somalia has requested bids for a 10MWp solar PV plant with 20MWh of storage capacity, which would be the country's first utility-scale renewable energy plant. Sited in the Puntland capital of Garowe, the plant is part of a World Bank Group-funded programme to boost generation and create a new sub-transmission network.
