Sars ruling highlights need to understand implications of investing

...

South Africans are increasingly mobile, either working abroad, staying abroad for extended periods, or opting to retire outside of South Africa. This has increased the focus on foreign pension products because South African retirement funds are limited in terms of their access to offshore markets.

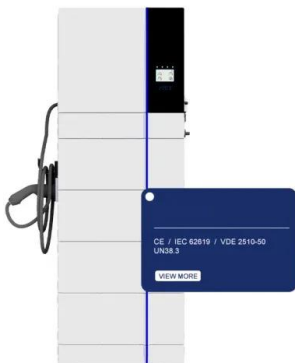

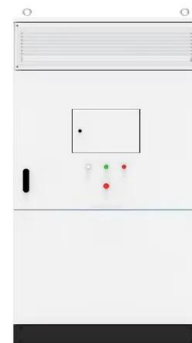

Scenario Overview

Brian did not realise there was a solution that would address so many of his concerns and facilitate his needs going forward. By consolidating his wealth into OPES, he has protected his wealth and improved the certainty of his financial position in retirement. In addition, the solution provides him with good
