Calala Battery Energy Storage System

The Calala Battery Energy Storage System is a 300 megawatt, 600 megawatt hour storage project proposed by Equis Energy, to be located approximately six kilometres south-east of ...

Calala

The proposed Calala Battery Energy Storage System (BESS) is located approximately 5.8km southeast of the Tamworth CBD within the Tamworth regional municipality. The BESS has a charge/discharge capacity of up to ...

Home Energy Storage (Stackble system)

Calala Battery Energy Storage System, Calala (SSD 52786213)

The Calala BESS project will include: o The construction and operation of a BESS with an estimated capacity of up to 300 Megawatts (MW) / 1200 Megawatt hours (MWh). o Associated infrastructure, including underground grid connection to the Tamworth 330kV substation.

Calala Battery Energy Storage System

The Calala Battery Energy Storage System is a 300 megawatt, 600 megawatt hour storage project proposed by Equis Energy, to be located approximately six kilometres south-east of

Tamworth, NSW. Alongside the battery, the project will include a connection to Tamworth Substation via underground transmission lines and ancillary works.

Battery Energy Storage System (BESS)

Where will the BESS be located, and what is its capacity? The Calala BESS will be located at 474 Calala Lane, Calala, New South Wales. The Kamilaroi/Gomeri People are the Traditional Custodians of the land. Covering 8.9 hectares of land and containing up to 164 battery enclosures and required infrastructure, the Calala BESS will act as a large

Battery Energy Storage System (BESS)

Our Calala BESS will make some noise when charging and discharging. This noise sounds like an air conditioning unit and comes from the battery's cooling fans which regulate its temperature. We will comply with the New South Wales Government noise regulations during the construction and operations of our BESS by:

Battery Energy Storage System (BESS)

You're invited

(BESS) with a storage capacity of up to 300 MW in Calala providing New South Wales with clean, affordable, and reliable energy. You're invited to our drop-in session to learn more about our project, ask questions, and provide feedback. You don't ...

Calala

The proposed Calala Battery Energy Storage System (BESS) is located approximately 5.8km southeast of the Tamworth CBD within the Tamworth regional municipality. The BESS has a charge/discharge capacity of up to 300MW and an energy storage capacity up to 600MWh, which is enough power to supply electricity for up to 570,000 homes for two hours.

Phase 1

the development of the Calala BESS in Calala, Tamworth NSW. The proposed site for the Calala BESS project is 474 Calala Lane, Calala, Lot 17 DP 629969, located within Tamworth Regional LGA, New South Wales (NSW). The total site area is approximately 36 hectares, however the footprint of the proposed facility will cover a total area of 8.9 hectares.
